DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Steele (US Patent No. 5,484,448). Steele et al., discloses a cooling garment including front and back panels with a plurality of rectangular elongated pockets affixed to the panel with one or more insulating sleeves retaining a cooling pack (see figures 1 & 2) and columns (2, 3, 4, 5 & 6).

Allowable Subject Matter

Claim 1 is allowed over the prior art of record.

Claim 3 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
